EDUCATION

Millersville University | Millersville, PA

Bachelor of Science in Computer Science May 9th, 2026

Relevant Courses:

- Software Engineering
- Programming Languages
- Web Application Development
- Operating Systems
- Artificial Intelligence
- Database Systems
- Data Analytics & Visualization
- Data Structures

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C++, SQL, C, OCaml

Frameworks/Tools & Databases: React, Flask, Node.js, Express, Git | PostgreSQL, MongoDB

Concepts: Data Structures, Algorithms, Object-Oriented Programming, System Design, Debugging, Software Testing, REST APIs, Full-stack Development, CRUD Applications, API Integration, Client-Server Architecture, State Management, CI/CD, Agile Development

PROFESSIONAL EXPERIENCE

Millersville University Athletic Club Website (Contract) | Millersville, PA

Web Developer *(Independent Contractor)* February 2026 – Present

- Developed a responsive React-based website delivering a modern, mobile-first user experience for a university organization
- Built a reusable component architecture (Header, Footer, templates) to ensure scalability, consistency, and maintainability
- Implemented dynamic UI features, including an interactive slideshow and adaptive navigation with mobile-specific layouts
- Optimized cross-device usability by restructuring layouts and resolving responsive edge cases across browsers and screen sizes
- Deployed and maintained the application using Vercel with GitHub integration for continuous updates and version control

SELECTED SOFTWARE PROJECTS

Maverick Course Scheduler (Python, Z3, Flask, AI) github.com/Maverick

- Developed an interface and tools around a constraint-based scheduling system using the Z3 theorem prover
- Integrated and configured an external solver library to generate academic schedules under defined constraints
- Designed and applied optimization rules for faculty assignments and classroom utilization
- Debugged constraint conflicts and edge cases to ensure reliable schedule generation across varying configurations
- Collaborated in an Agile team using Git, iterative sprints, and CI workflows

X-Industries — Amazon 2.0 E-Commerce Platform (Node.js, Express, MongoDB) github.com/X-Industries

- Developed a full-stack e-commerce platform with authentication, product catalog, and order management
- Designed and implemented RESTful APIs with MongoDB to support scalable CRUD operations
- Managed client-server data flow and dynamic frontend components for shopping cart and order workflows

CS Job Market Dashboard (Python, Vue, Typescript, Pandas, Chart.js) github.com/Job-Market-Dashboard

- Built a full-stack data analytics dashboard to visualize real-world job market trends across skills, salaries, and regions
- Engineered a Python data pipeline to clean, normalize, and aggregate datasets, enabling real-time filtering and insights
- Developed a reactive Vue + TypeScript frontend with interactive visualizations and resolved Chart.js rendering issues

LEADERSHIP & EXPERIENCE

Club Tennis - Founder, President, Head Coach & Advisor *(Millersville, PA)* February 2023 – Present

- Founded and led the university Club Tennis program, organized practices, matches, and team operations
- Manage team coordination, scheduling, and communication with the university and external organizations
- Develop leadership and coaching skills while growing and sustaining an active student organization
- Scaled the organization for longevity by developing future leaders and formalizing processes for continuity after me

LANGUAGES: **Spanish:** Native, Read, Write, & Translate | **English:** Native, Read, Write, & Translate

NOTABLE EXPERIENCE

Coding Club | Millersville, PA
Member October 2022 – Present
• Participate in collaborative coding activities and expand programming skills through peer learning

Marauder Fund | Millersville, PA
Member February 2023 – May 2025
• Collaborated with peers to analyze investment opportunities and develop financial decision-making strategies

Robotics Club | Millersville, PA
Member August 2023 – May 2025
• Contributed to hands-on projects involving robotics design, problem-solving, and teamwork

Cyber Defense Club | Millersville, PA
Member October 2022 – May 2024
• Explored cybersecurity concepts, including threat detection, system vulnerabilities, and defensive strategies

JOB EXPERIENCE

Resident Assistant *(Millersville University | Millersville, PA)* August 2023 – Present
• Foster a supportive residential community by organizing events and facilitating engagement among student groups
• Resolve resident concerns and conflicts through effective communication, problem-solving, and policy enforcement
• Collaborate with housing staff to ensure a safe, inclusive, and well-managed living environment

DoorDasher *(Independent Contractor | Lancaster, PA)* January 2022 – Present
• Manage scheduling and delivery operations while maintaining high efficiency and time management
• Provide consistent customer service by ensuring accurate, timely deliveries and resolving issues
• Demonstrate accountability and reliability in a self-directed work environment with minimal supervision

Tennis Coach *(Yacta | Hanover, PA)* March 2019 – September 2023
• Coached and mentored athletes ages 6–14, emphasizing skill development, teamwork, and sportsmanship
• Planned and led structured training sessions tailored to varying skill levels and learning styles
• Coordinated with parents, staff, and club leadership to support player development and program success
